From: **John H Large** 29 October 2009  
Cc: David Hoadley – SCANS

Subject: **SOTONSAFE – WEDNESDAY 4 NOVEMBER PRESENTATION**

---

---

I refer to your e-mail response of 29 October 2009 to my requests M1385-A3, A12 and A13.

So there is no misunderstanding, from your reply I am going to assume, unless I am informed otherwise by yourself, in respect to my previously itemised requests of M3185-A3:

**Item 2) i) ii) and iii)**

That Southampton City Council has no information in terms of projected dose rates and cumulative dose exposures for members of the public, its own employees and employees of the emergency services in the off-site emergency zones as prescribed by the HSE's directive under REPPIR.

This closes my request for further information for which I thank you for your informative and prompt response.
