To: **Anita McDonald** Naval Service FOI Coordination Cell M3185-A22

From: **John H Large** 19 November 2009

Cc: David Hoadley - SCANS

Subject: **LARGE & ASSOCIATES 5<sup>TH</sup> FOI REQUEST MOD**

---

---

Further and in addition to my previous request M3185-A2, M3185-A5, M3185-A9, M3185-A15 and M3185-A19, please provide me with a full and unabridged copy of:

- 1) SOTNUSAFE Operators Emergency Arrangements as controlled by the Naval Base Commander (Portsmouth), current version with Annexes, as this applies to the public areas beyond the Exclusion Zone which for SotonSafe is taken to be submarine itself.
- 2) The manufacture and type of the personal dosimeter issued with the 'Grab Bag' referred to in Section 6.2 of SotonSafe.
- 3) If a universal setting is preset to all issued grab bag personal dosimeters then the preset alarm level, or if the preset is issue group specific, then the presets applied to those dosimeters issued to each group or organisation involved in the response (ie HFRS, SCAST, etc).

In your response it would be helpful if you refer to my order of itemisation above.

If you consider this to be a request under the *Freedom of Information Act 2000* then it is appropriate that I note to you that S10 of the Act requires you to respond '*promptly and in any event not later than the twentieth working day*' from the date of receipt of the request.
