Subject: **NATIONAL OCEANOGRAPHY CENTRE, UNIVERSITY OF SOUTHAMPTON -
SOTONSAFE EMERGENCY PLAN – FREEDOM OF INFORMATION ACT 2000
2ND REQUEST FOR EMERGENCY PLANNING/EVACUATION SCHEME**

Thank you for your response and enclosures relating to my Freedom of Information Act request M3185-A35 of 11 February 2010.

I have two further but relatively straightforward requests related thereto:

- 1) As we have discussed the University wished to consider the whether it would be prudent to release any such information freely into the public domain. However, now that we are aware of the detail of the information provided, does the University still believe it necessary to maintain this level of confidentiality – my clients SCANS have indicated that the information would not be published on the Large & Associates web site if the University so desires?
- 2) Would you please provide the date of completion (ie open publication) for each of the two documents provided, indicating if each document replaced an existing document at its date of publication.
