To: **Gareth Rowlands** DE&S Policy Secretariat (Submarines) M3185-A47  
From: **John H Large** 24 March 2010  
Cc: David Hoadley – SCANS

Subject: **SCANS – ADDITIONAL FOI REQUEST RELATING TO M3185-A45**

---

Further to my previous request M3185-A45 of 23 March 2010 and specifically relating to the *DNSR Operational BSS - Review DNSR/20/12/2 29 July 2008*, please provide me with a *Catalogue* or *Index*<sup>1</sup> relating the documentation, etc., produced in respect to Operational Berth Safety Statements for nuclear powered submarine berths in the United Kingdom,<sup>2</sup> for the periods inclusively:

- 1) from the issue of FLEET/252/008 of 30 January 2008 to February 2008;
- 2) thereafter to the issue of DNS/20/12/2 of 29 July 2008;
- 3) thereafter to the issue of DNSR/3/3/3/1 of 6 October 2008;
- 4) thereafter to 30 April 2009; and
- 5) thereafter to date.

In your response it would be helpful if you refer to my order of itemisation above.

---

<sup>1</sup> For the avoidance of doubt by 'Catalogue or Index' I mean a schedule or listing of the title citation of all items of documentation raised or authored by DNSR and/or Navy Command, etc in respect to the Operational Berth Safety Statements.

<sup>2</sup> These are the berths covering NNPP operations at the defence nuclear sites listed in para 1 a),b),c) and d) of the Joint Regulatory Assessment REPPIR 2008 Submission of 30 April 2009, HSE Ref D3NON 70059 and DNSR Ref DNSR/3/3/3/1.
